Important Information

- Based on the definition of Highly Compensated Employee (HCE), the employee(s) listed on the Future HCE Determination Report are considered highly compensated for the Plan Year beginning in 2025. The maximum average deferral rate for the Highly Compensated Employee(s) for the 2025 plan year is not limited as long as the plan follows the rules and regulations of the Safe Harbor Plan. Note: The actual amount an employee can defer in 2025 is the lesser of $23,500 or the annual addition limit (adjusted for -catch-up- contributions, if applicable).
- Your plan is designed to allow participants who were age 50 or older to make -catch-up- contributions. The 2024 limit was an amount up to $7,500. Please see the appropriate compliance test for any participants who took advantage of this provision during the plan year. For 2025, the -catch-up- contribution is an amount up to $7,500 for any participant who is or will be 50 or older at any time during the plan year. A plan may allow for higher catch-up contributions for participants age 60-63. For 2025, the catch-up limit for these participants is $11,250.
- If you sponsor a qualified retirement plan not administered by Mutual of America, please provide your service provider with a copy of this Valuation Report to complete the combined plan testing. Upon request, we can perform the combined plan testing. Please contact your local regional office representative to discuss.
- The plan-s employer match contribution is calculated on a participant-s compensation earned for each payroll period. We recommend reviewing your payroll records to determine if the plan-s match formula was applied correctly to each payroll period. We also recommend reviewing your match contributions to ensure that employees did not receive a match contribution in excess of the contribution limit based on the annual compensation limit. Work with your local regional office representative if adjustments to the employer match contribution are required.
